### ABOUT QualityNet

Established by the Centers for Medicare & Medicaid Services (CMS), QualityNet provides healthcare quality improvement news, resources and data reporting tools and applications used by healthcare providers and others.

QualityNet is the only CMS-approved website for secure communications and healthcare quality data exchange between: quality improvement organizations (QIOs), hospitals, physician offices, nursing homes, end stage renal disease (ESRD) networks and facilities, and data vendors.

### of Imaging Efficiency Measures

Medicaid Services (CMS) is conducting a national "dry run" of patient Imaging Efficiency (OIE) measures, developed under the Reporting Program (HOP QDRP). Hospital-specific reports, from calendar year 2007 Medicare fee-for-service claims, have been posted on QualityNet. Throughout the 30-day dry run, which ends March 18, 2008, we encourage you to post questions or comments about the OIE measures to [this forum](#).
