- Population fields: Enter the total number of Medicare and Non-Medicare patients for each month that met the inclusion criteria for the Measure Set or SCIP Strata. Select the 'Continue' button to populate the Totals.
- Sample Size fields: If the 'Not Sampled' or 'N/A, submission not required' option is selected, only the population size must be entered. If the 'Monthly' or 'Quarterly' sampling option is selected, enter the number of cases that will be submitted for the Measure Set or SCIP Strata for each month. If the Population size of a given month is too small to allow sampling, enter the same number as entered in the Population field. Zero can be entered for both the Population and Sample Size fields. Select the 'Continue' button to populate the Totals.

- Select 'Continue' to generate a total and display the Sample size table.
- All fields must be filled in. If you have no data for a particular item, you must enter a zero "0" in that field.
Hospital Inpatient: Edit Population & Sampling

- Enter Medicare and Non-Medicare Populations for all three months
- All fields must contain values to Continue
- If no cases met the inclusion criteria for the Measure Set for the month, enter ‘0’
If Quarterly Sampling is selected, the Total Population for the quarter is compared with the Total Sample Size for the quarter to determine if it meets the minimum sample size requirement.

If Monthly Sampling is selected, the Total Population for each month is compared with the Total Sample Size for the month to determine if it meets the minimum sample size requirements.

For details about each field, or for minimum Sample Size requirements, refer to the Specifications Manual for National Hospital Quality Measures for the reporting period you have selected.
