

Meeting the Challenges of Diabetes: Core Basics

Tuesday, March 2, 2021
10am – 12noon

Topic:

The MCO Diabetes Performance Improvement Collaborative has launched a new three year PIP as of 1/1/2021. The project aims to improve the comprehensive diabetes care and services for Seniors and SNBC members with the focus on closing the gaps on health care disparities within our populations. Care Coordinators/Case Managers have an important role to educate, support and assist members to set and achieve health goals to improve their diabetes care.

This training is the first of a series of trainings that will be offered over the course of this project that will focus on helping Care Coordinators/Case Managers gain a better understanding of diabetes, it's impact on persons living with diabetes, and how to best support members to best manage their condition. This training aims to ensure that Care Coordinators, Case Managers and other professionals working with MSHO and SNBC members have a good understanding of diabetes, its impact, and to begin to enhance your skillset used when working with members with diabetes.

Introduction – Tonya Haney, BCBS, Diabetes PIP Collaborative Lead

Presenter: Dr. Jody Nelson, Medical Director at Medica

Who should participate/Audience:

MSHO and SNBC Care Coordinators, nurses, public health, health educators, social workers, therapists, Community Health Workers and anyone who interacts with individuals with diabetes.

Objectives:

- Understand basic information about diabetes
- Understand the impact of diabetes for members and its impact on their daily life
- Identify at least three strategies to support members in managing their diabetes
- Learn some of the latest technology in diabetes management

CEU - Participants should contact their relevant licensing board to determine if this program will meet continuing education requirements and CEU values.
